

HTA9

High Performance Home Theater System

Immerse yourself in a multi-dimensional audio experience with the HT-A9 Home Theater System. Unique 360 Spatial Sound Mapping technology calibrates sound to your room for an environment that seems to expand beyond the walls. Support for 8K HDR², 4K 120p³ passthrough, and Dolby Vision⁷ video passthrough make your favorite movies and games sound out of this world.

Bullets

- 360 Spatial Sound Mapping for a whole new surround experience with Dolby Atmos[®] and DTS:X[®]
- Flexible layout with wireless connectivity
- Hi-Res Audio capable X-Balanced speaker units
- Immersive Audio Enhancement converts regular audio to near 7.1.4 Ch
- Vivid visuals and fast paced game play with 8K² and 4K/120³ passthrough
- Stream your way with Bluetooth⁹, Wi-Fi, Chromecast built-in¹⁰, Spotify Connect, and Apple AirPlay 2
- Customize your setup with two subwoofer choices
- Pairs with BRAVIA⁴ for easy access to home theater system controls
- Control content with your voice using Google Assistant⁵ and Amazon Alexa⁶
- Premium audio made easy with onscreen user interface for sound adjustments

Features

360 Spatial Sound Mapping that adapts to your environment

Sony's proprietary technology which provides a much wider and immersive sound field. Sound Field Optimization calibrates the sound to your room for a listening environment which seems to expand beyond the walls.

Flexible layout for any situation

Reduce clutter and enjoy a simple setup without a need for extra cables. HT-A9's speakers wirelessly connect to the control box, allowing you to place them anywhere in the room. Sound Field Optimization allows you to have the speakers at different heights and distances and will measure the position of each speaker to create the best sound for your room.

High quality audio

The HT-A9 is equipped with Hi-Res Audio capable X-Balanced speaker units to allow unparalleled bass reproduction with crystal clear highs. Dolby Atmos and DTS:X are supported, and the HT-A9 also has eARC to support high quality audio from your favorite content providers.

Upscales Regular Audio

SONY

The Immersive Audio Enhancement button on the remote upscales regular stereo audio to close to 7.1.2 surround sound, adding a new dimension to your content.⁸

Cutting-edge sound and visuals

Support for 8K², 4K/120p³ passthrough, and Dolby Vision⁷ brings vivid visuals and quality sound to shows, movies, and fast paced video game play.

Easy Listening

It's never been easier to listen to your favorite tracks. HT-A9 supports audio streaming via Bluetooth⁹, Wi-Fi, Chromecast built-in¹⁰, Spotify Connect, and Apple Airplay 2.

Customizable Ecosystem

Take your HT-A9 experience to the next level with Sony's optional subwoofers. The SA-SW3 and the SA-SW5 subwoofers allow you to tailor how much extra bass you want to add to your setup. The subwoofers automatically pair to the HT-A9 for seamless and easy setup.

Works with BRAVIA

An integrated UI with select Sony TVs allows you easy access to all the home theater system controls. The HT-A9 also features a TV Center Speaker Mode which uses the TV to enhance and uplift the dialogue.

Voice Assistant Compatibility

Connect to your home's other devices with Google Assistant⁵ or Amazon Alexa⁶ (via FW update)

Easy UI

An OLED front panel display is also on the control box for quick viewing of the volume level, sound mode, or input. An onscreen user interface helps you make more detailed adjustments to your home theater system settings easily.

Stream music throughout the house

Use the Sony | Music Center App to group selected Sony soundbars and speakers together, then stream music in multiple rooms.¹¹

360 Reality Audio

Sony's 360 Reality Audio technology creates an audio experience that creates a new level of immersion¹. Music is engineered to sound like its coming from all around you, making it seem like you're on the stage or in the recording studio with the artist.
