

SONY

XBR-75Z9F

75" class (74.5" diag.) BRAVIA 4K HDR ULTRA HD TV

Powerful. Beautiful. The Picture Processor X1™ Ultimate and X-tended Dynamic Range™ PRO 12x technology give the Z9F immaculate 4K HDR¹ picture quality. X-Wide Angle technology ensures a great view of the TV from anywhere in the room, and X-Motion Clarity makes action scenes look amazingly real. Introducing the MASTER Series: the best of Sony.

Bullets

- MASTER series TVs are meticulously engineered for excellence with the latest and greatest in TV technology
- Precision Full Array Local Dimming & Boosting for more exact dynamic range
- Everything is upscaled to get close to 4K HDR^{1,6} with the Picture Processor X1™ Ultimate and 4K X-Reality PRO
- X-tended Dynamic Range™ PRO 12X contrast range provides a wider range of brightness⁹.
- 4K HDR^{1,2} - HDR10, HLG & Dolby Vision™⁷ for incredible detail and clarity
- Enjoy smooth and vibrant colors with TRILUMINOS™ Display & 4K HDR Super Bit Mapping
- X-Wide Angle technology makes picture and color look great from anywhere in the room
- On-screen action and motion look better than ever with X-Motion Clarity™ technology
- Android™ TV with the Google Assistant technology gives you a genius TV^{3,10}
- Enjoy studio-quality content with Netflix Calibrated Mode⁸
- A TV with premium aesthetics: Slice of living design with cable management
- Compatible with Google Home⁴ and Amazon Alexa⁵ for an even smarter home

Features

MASTER Series: Meet the Masters

Sony's MASTER Series TVs are the very best of Sony, created to exemplify the goal of faithfully conveying the creator's intent on-screen. These TVs are engineering marvels that are meticulously designed with the latest and greatest proprietary TV technology. The MASTER Series TVs deliver the best picture quality available, no matter what you like to watch.

Enhanced brightness, incredible contrast with Precision Full Array Local Dimming & Boosting

Sony's precision full-array local dimming and boosting technology dynamically changes the light levels in different parts of the screen based on what's on the screen, resulting in a dramatic increase in contrast and brightness. Add in X-tended Dynamic Range™ PRO 12x which gives the screen 12 times the contrast range⁹ of a conventional LED-edge lit TV. By accurately balancing the light output across the screen, darker scenes get darker and brighter scenes get brighter.

Intelligent processing, ultimate realism.

Simply put, our brand-new proprietary 4K HDR Picture Processor X1™ Ultimate is our best processor, ever. Object-based rendering happens in real time at lightning speed to remaster and upscale everything you see to near-4K HDR quality^{1,6}. Everything on the screen is identified, analyzed and optimized individually to adjust the overall contrast, sharpness and color for a picture that looks nearly identical to the real thing.

SONY

Experience a more natural picture with 4K X-Reality PRO and Object-Based Super Resolution

Every object, accurately displayed. With Object-Based Super Resolution in combination with 4K X-Reality PRO™, you'll see lifelike detail, textures, and clarity in everything you watch. Leveraging intelligent dual database processing, pictures look cleaner with less on-screen noise^{1,6}. Every single pixel is enhanced beautifully by Sony's best 4K HDR Picture Processor X1™ Ultimate

See the big picture with 4K HDR and Dolby Vision

High Dynamic Range (HDR) picture is the way TV was always meant to be watched. 4K Ultra HD resolution¹ and HDR video content combine to bring dazzling detail, color and contrast to everything you watch, while keeping a far wider range of brightness than other video formats². Dolby Vision™⁷ brings scenes to life with striking highlights, deeper darks and vibrant colors. Whichever format you choose, Sony MASTER Series TVs deliver picture-perfect reality, creating an immersive and engaging cinematic experience.

TRILUMINOS™ Display & 4K HDR Super Bit Mapping deliver smooth and vibrant colors

Scenes appear as they do in real life with X-Motion Clarity™ technology. This revolutionary, best in class technology from Sony refines action on the screen in real time with an incredible refresh rate for action that is brighter and clearer than ever before.

X-Wide Angle

X-Wide Angle technology gives the Z9F vivid real-world colors from any angle while retaining more color and brightness than other LED TVs. Enjoy a great picture with incredible color from anywhere in the room.

On-screen action and motion look better than ever with X-Motion Clarity™ technology

The difference is clear. You'll see lifelike detail and stunning clarity, no matter what you're watching. Two powerful image improvement databases work together, dynamically improving images in real time. 4K X-Reality PRO™ upscales images to near 4K clarity while a second database cleans the picture and reduce on-screen noise⁶. Every single pixel is enhanced beautifully by the powerful 4K HDR Picture Processor X1™ Ultimate

A genius TV, a smarter home

With Android TV, simply ask, and you shall receive. Control your TV and smart home hands-free by talking directly to your TV³ with the Google Assistant built in. Cast your favorite apps with Chromecast built-in¹¹, or enjoy a huge range of apps from Google Play™, including YouTube™, Netflix, Prime Video, Hulu, Spotify and more.^{10,12} With Google Home⁴ and Amazon Alexa⁵ compatibility, simply voice-control your TV and ask it to do things like cast and control videos from YouTube with Google Home or change the channel or volume with Amazon Alexa.

Meet your Google Assistant

Sony TVs equipped with Android TV have the Google Assistant built in, making your life easier with hands-free voice search. Just start with "Hey Google" to ask it questions, control smart home devices like Nest™, or access many of the apps and services you already use every day^{3,10}. It's your own personal Google, always ready to help.

Enjoy studio quality with Netflix Calibrated Mode

This mode was specially developed to enjoy Netflix originals and reproduce picture quality on a TV that is as brilliant as a studio evaluation master. With Netflix Calibrated Mode⁸, the creator's vision and intent is faithfully preserved.

Optimizing colors for professionals

Our MASTER Series TVs receive high performance calibration that has never previously been possible using CalMAN software. It allows adjustments to be made with finer precision than conventional picture quality settings to meet the strict requirements of creators in the post-production stage. Colors are reproduced with maximum fidelity to the original TV signal, giving exceptional picture control for a TV. CalMAN also features an easy-to-use interface that has been well received by calibration specialists.

Slice of living design with cable management

Unightly wires are managed and kept out of sight inside the hidden cable panel structure for a clean, sophisticated look. The aesthetics of the new Slice of Living design not only compliment your living space, but coexist perfectly with Sony's 2018 lineup of high-performance sound bars, making your entertainment center look like a work of art.

1. 3,840 x 2,160 pixels
2. Requires HDR compatible content from supported streaming services, such as Netflix, Ultra and Amazon Video or HDR compatible content device connected via HDMI input. Requires HDMI @ cables sold sep.
3. User must connect to a Google account to use, including voice to activate linked apps.
4. Google Home device (sold separately) compatible with Sony TV's powered by Android TV. Requires compatible devices connected to the same wireless home network. Download the Google Home app from the iPhone App Store or Google Play. Subject to third party app terms and conditions. User must link compatible devices in order to control operation. Once download is complete, the Google Home feature may be connected to the Sony device to access the voice control function. Google Assistant built in and hands-free voice are only available in the English language.
5. Amazon Alexa enabled devices (sold separately) compatible with Sony TV's powered by Android TV. Amazon account required. Subscriptions may be required to access certain content.
6. Upscaled, simulated and enhanced 4K images will vary based on source content.
7. Dolby Vision™ is available via network update. Dolby Vision content will be compatible with Dolby Vision devices and streaming services such as Prime Video, Apple TV 4K, and Netflix.
8. Netflix streaming membership required. 4K Ultra HD availability subject to your Netflix subscription plan, internet service, device capabilities, and content availability. www.netflix.com/termsofuse
9. This is the perceptible contrast level expanded by X-tended Dynamic Range PRO technology, which is a unique figure calculated for the contrast that users actually feel and experience (XDR Contrast). This figure is based on our conventional TV without local dimming.
10. Broadband speed of at least 2.5 Mbps recommended for SD services, 10 Mbps for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Wireless connectivity requires 802.11n home network (802.11n recommended). Network services, content, and the operating system and software of this product may be subject to separate or third party terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information. Apps must be compatible with TV.
11. Chromecast built-in compatibility dependent on app.
12. App availability varies by region and device. Use of this TV requires consent to Google Terms of Service and Privacy Policy. Please visit <http://www.google.com/policies/terms/>, <http://www.google.com/policies/privacy/>. Third party product and services sold separately. Must download 3rd party apps in smart phone. Requires compatible devices connected to the same wireless home network.
